B. Reading

2) Read the following passage then answer the questions:

Parents usually have a complaint that their kids are stuck to the internet for long hours. In fact, this can be useful or harmful according to the way we deal with it. Internet can have a positive influence on kids. A lot of websites are dedicated to creat educational content for children like art and craft, science, history, geography and math. It is one of the primary sources of entertainment for kids. It takes the children to different countries and educates them about various cultures in the world. Some websites are inspiring. They encourage children to try new things. For example, a documentary about famous scientists, artists and other public figures can inspire children to do good deeds or achieve something big in life.

Internet <u>affects</u> children negatively as well. Addiction to <u>it</u> reduces the amount of physical activities in children's life. Sometimes, they refuse to do anything else. Lack of physical activity can lead to vision problems. Moreover, internet addiction eats away the time children get to interact with other children in their social circle, which may affect their knowledge and behavior.

A- Answer the following questions:

1) What determines if the internet is useful or had?

	1) What determines if the internet is useful of bad:
	2) How can public figures inspire children?
